**Wallace & Tiernan, Incorporated
Belleville, NJ; Notice of Revised
Determination on Reopening**

On July 22, 1996, the Department, on its own motion, reopened its investigation for the former workers of the subject firm.

The initial investigation resulted in a negative determination on July 3, 1996, because the "contributed importantly" test of the Group Eligibility Requirements of the Trade Act was not met for workers at the subject firm. The denial notice will soon be published in the Federal Register.

The workers at Wallace & Tiernan, Incorporated located in Belleville, New Jersey produced hydraulic diaphragm pumps, diaphragm metering pumps and gravimetric and volumetric belt feeders. The workers are not separately identifiable by product line. The company official has provided new information regarding company imports of pumps and chemical feeders. Findings on reopening show that the company has increased its reliance on imports of pumps and chemical feeders from Wallace & Tiernan's foreign operations. All workers will be separated from employment at the Belleville production facility when the subject firm closes in September 1996.

Conclusion

After careful consideration of the new facts obtained on reopening, it is concluded that increased imports of articles like or directly competitive with pumps and chemical feeders produced by the subject firm contributed importantly to the declines in sales and to the total or partial separation of workers of the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

All workers of Wallace & Tiernan, Inc., Belleville, New Jersey, who became totally or partially separated from employment on or after May 29, 1995, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, D.C. this 23rd day of July 1996.

Russell T. Kile,

*Acting Program Manager, Policy and
Reemployment Services, Office of Trade
Adjustment Assistance.*

[NAFTA-01015]

**AVX Corporation, Myrtle Beach, SC;
Amended Certification Regarding
Eligibility To Apply for NAFTA
Transitional Adjustment Assistance**

In accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 U.S.C. 2273), the Department of Labor issued a Certification for NAFTA Transitional Adjustment Assistance on June 13, 1996, applicable to workers of AVX Corporation located in Myrtle Beach, South Carolina. The notice was published in the Federal Register on July 3, 1996 (61 FR 34875).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The affected workers were involved in the testing and packaging operations in the production of ceramic capacitors. New information provided by the company shows that workers are separately identifiable by product line. Accordingly, the Department is amending the certification to limit coverage to those workers of the subject firm in Myrtle Beach involved in testing and packaging operations related to production of ceramic capacitors.

The intent of the Department's certification is to include those workers of AVX Corporation who were adversely affected by the shift in production to Mexico.

The amended notice applicable to NAFTA-01015 is hereby issued as follows:

Workers of AVX Corporation, Myrtle Beach, South Carolina, involved in testing and packaging operations related to the production of ceramic capacitors, who became totally or partially separated from employment on or after May 7, 1995, are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed at Washington, D.C. this 26th day of July 1996.

Russell T. Kile,

*Acting Program Manager, Policy and
Reemployment Services, Office of Trade
Adjustment Assistance.*

[NAFTA-00634]

**Lockheed Martin, Ocean, Radar and
Sensor Systems, Utica, NY; Amended
Certification Regarding Eligibility To
Apply for NAFTA Transitional
Adjustment Assistance**

In accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 U.S.C. 2273), the Department of Labor issued an Amended Certification for NAFTA Transitional Adjustment Assistance on November 30, 1995, applicable to workers of Lockheed Martin, Ocean, Radar & Sensor Systems located in Utica, New York. The notice was published in the Federal Register on December 12, 1995 (60 FR 63736).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. Information provided by the State shows that workers providing support services related to the production of printed circuit boards and inspection operations are being excluded from eligibility for NAFTA-TAA.

The intent of the Department's certification is to include all workers of the subject firm who were adversely affected by increased imports from Canada or Mexico. Accordingly, the Department is again amending the
